--\$50 deposit reserves a sheep or lamb.. Yavanna, Malkyn, Gussalyn, and Lo'rien available in August, all others need to be reserved with a \$50 deposit by June 4, 2019

Yearling ewes for sale

Galadriel, moorit, would be good size for conservation grazing, halter trained and manageable. Incisors ok but some of her lamb teeth on side are off-pad. Fiber pet only, not for breeding. \$200.

Flora, shaela flecket with HST patterned spotting, PG2 from fall 2018 sample at least 6 months old. Will likely be G2 and G3 as yearling and adult, Fiber Pet only, not registered and not for breeding due to being cow-hocked but would be sweet and biddable fiber pet and this color is not always easy to find. \$200.

Yearling rams for sale

Lo'rien, fully horned ram, gray (black) katmoget. Horns OK at age 1, fleece crimp, NASSA registered. FFSSA PG1 as 6 month old lamb but likely will be PG2 as yearling and on. \$300.

Bilbo, fully horned, solid black carrying white spotting. Horns good, excellent fleece, very fine crimp, similar to his sire Mancera's as yearling, which won Grand Champion fleece at Iowa FFSSA show in June, 2018. Lamb fleece, approx. age 6 mo. Tested as FFSSA PG1 with SF of 21.4. Body a bit narrow at this age, legs also little hocky but too not bad, breed to straight-legged ewes for horn, color or fleece improvement. Was a partial bottle lamb so far behavior is not too bad and the same is true for his fully horned gray (black) katmoget twin brother, who has good behavior currently and was sold for breeding in July, 2018—nice lambs out of his brother, as reported by his new owner. \$250—inexpensive way to improve fleeces in your flock. Eligible for NASSA registration. Would need deposit by June 4.

Gamgee, fully horned moorit gulmoget yearling ram, NASSA registered. PG1 as of late last fall, might be PG2 now as yearling. Crimp tends toward spiral, color very nice moorit, Horns good. He started out straight on his back legs and still walks fairly straight but stands cow-hocked and pasterns appear weak. We don't know if recently injured, if growth stage, or if permanent. He looked good enough last fall that we showed him. Genetic diversity—sired by WP Leego who is an direct line AI descendent of Todhill Jericho \$200. Would need deposit by June 4.

Adult Ewes for sale:

Malkyn, age 2, is a refined, NASSA-registered musket ewe lamb (REg. # is S46429) with an exquisitely soft, very finely crimped fleece out of two very fine-fleeced parents. Malkyn has a level topline and a lovely, correct tail. She is proven with a beautiful single moorit ewe lamb, Patacone, born 4/5/19 , sired by WP Leego. No lambing problems. We plan to keep her ewe lamb. \$300

Gussalyn, age 2, is a beautiful fine-fleeced musket yearling ewe with great conformation, crimp and staple length. We showed her as a lamb at the competitive MSSBA Shetland specialty show in Wisconsin last year and she and her cousin, Mirabelle placed first as pair of ewe lambs. She was also a member of the first place best small flock there and placed first with her dam in dam and daughter class. Musket color overdyes beautifully. Her fleeces tends toward spiral crimp. She would be a wonderful addition for anyone who wants a quality Ag musket in their flock. She is proven with 2 nice gray ram lambs born April 2019 sired by UTS Mancera, no lambing problems. \$300

GT Leda, white, 4 years old. Leda has given us some really nice lambs, especially when bred to UTS Mancera—good structure and fleeces. She missed her breeding this year when bred to WP Leego, however. We think she is too fat and it is affecting her fertility. Since we don't have a good way to manage her nutrition separately from the rest of our ewes, she is available reasonably priced. FFSSA spring 2019 fleece sample PG2, with SF of 27.4. Excellent mother, no past lambing problems except for her fertility issue this year—in all fairness to Leda, we had the rams and ewes together only 4 weeks this year. The ram she was bred to sired a single lamb with his other ewe. If you have good capability to manage her diet this summer or just want her as a non-breeding fiber pet, consider Leda. Quiet, sweet disposition, and she has permanent registration in FFSSA and also is NASSA-registered. She is dam of the best breeding ram we have bred to date, GT Lancelot. We would need to have a deposit by June 4, 2019. Her price is \$200.
